Fumigation & ISPM 15

There have been a few developments recently with regards to ISPM15 and you need to keep up or you will be left stranded. The old system of registration has lapsed and you now have to re-register with the following Department:

Department of Agriculture Forestry and Fisheries

Directorate: Inspection Service

Attention: Petunia Sambo

Tel: 012 309 8753

Fax: 086 6425 204

1st Floor Room 14

The registration is now also valid for three years but the major difference is that the department now conducts an audit to ensure that you are in a position to comply with the standard. During the audit they check that you do have the following, and in working order:

1. Fumigation tarpaulins (correct material and thickness).
2. Sandbags and sealing materials.
3. Fans for circulation of gas.
4. Scale for the Methyl bromide bottle (not a bathroom scale).
5. Thermometer to check outside and timber temperature.
6. Gas detection device for leaks (halide gas detector).
7. Gas monitoring equipment (to measure correct amounts of fumigants at intervals)
8. Safety equipment and warning placards.
9. Standard operating procedures (systematic layout of the fumigation process).

All the info that you need is discussed and demonstrated in our Bag, Bulk and Structural Fumigation course, so don't miss out — book now.
